Girls want to look their very best at all times, especially when they show up on particular occasion. They don't want to spend hours making themselves up in front of the mirror, but still want to look like a movie star — as if they were born that way.

It seems that everyone has a different hairstyle. The advantages of long hair are that it can be changed into so many different styles. You can wear your hair up in many kinds of ways. Short hair is so healthy. Your short hair often uses less shampoo, and depending on your style, you look younger and neater all the time — no matter what you are wearing. Short hair looks cleaner and fresher and it doesn't hide most of your features.

I think long hair is crucial for a girl, and I usually prefer long hair for girls, though harder to deal with, it gives them a more feminine look and makes them more good-looking. I am attracted by girls with silky long hair... so fascinating. However, they must know how to make their hair suitable for different occasions. Long hair always has the classical nice style, but that doesn't mean short hair is at a disadvantage. It really depends on the person's shapes of faces and body. It doesn't really matter, as long as they look good. Many girls with short hair look like kind of boys and they are considered independent and strong. But some girls with short hair do look extremely good as well. If a girl can look good in both, then she is truly beautiful.

"Early to bed, early to rise" makes a man healthy, wealthy and wise. It's good for the body.

This is an old saying. Have you heard of it before? It means that we must go to bed early at night and get up early in the morning. Then we shall be healthy. We shall also be rich and clever. That is true. The body must have enough sleep to be healthy. Children of young age should have enough sleep, or they can't do their work very well. They will not be wise and they may not become wealthy!
